Single copies of the guide can be obtained free of charge from the Regoverning Markets Programme (UK) or from the Capacity Development and Institutional Change Programme – Wageningen University and Research Centre, The Netherlands. To obtain a copy, please send an email to regoverning.markets@iied.org or info.wi@wur.nl, providing your name, the name of your organisation and full mailing address. An electronic version of the guide can be obtained free of charge from www.regoverningmarkets.org or from www.cdic.wur.nl/uk/publications.

Acknowledgments

This guide has been developed through a collaborative process involving many of the partners from within the Regoverning Markets consortium and outside.

The general concept was developed through a working group process undertaken by the guide authors with inputs also from Regina Birner, International Food Policy Research Institute; Bill Vorley, International Institute for Environment and Development; and Giel Ton, Wageningen International University and Research Centre. An early working paper prepared by Regina Birner on institutions provided key background resource material.

Through the process of taking the working elements of the guide to the operational level in seven countries, namely Turkey, Indonesia, South Africa, Morocco, Bangladesh, Pakistan and the Philippines, local moderators, workshop facilitators and indeed the participants themselves helped to shape the guide. They told us what was important, what was most useful and what should be avoided. The authors acknowledge that this guide would not have been possible without these inputs and contributions as well as the engagement of the many hundreds of stakeholders including farmers, private sector actors, the public sector and academics working in different social, economic and market contexts. A learning workshop held in the Philippines for some twenty champions and moderators working on agrifood market chains from across Asia provided additional feedback on the material that now constitutes the guide. The inputs from this group are gratefully acknowledged, in particular those of Larry Digal who co-ordinated the learning event.

This guide is prepared as part of the wider Regoverning Markets Programme, Inclusion of Small-scale Producers in Dynamic Local and Regional Markets, funded by the UK Department for International Development (DFID), the International Development Research Centre (IDRC), the Canadian International Development Agency (CIDA), the Netherlands Interchurch Organisation for Development Co-operation (ICCO), Cordaid, and the US Agency for International Development (USAID). The donors' support for this work has been much appreciated, in particular that of Susan Thompson of USAID, who gave specific encouragement for the development of this guide, as well as DFID and USAID, who provided supplementary funding. The input from Wageningen International into writing and publishing the guide was made possible through the International Policy Support Programme of the Netherlands Ministry of Agriculture, Nature and Food Quality.

The draft guide was formally reviewed by Mark Lundy, Rathin N. Roy and Adom Gharthey, whose comments were gratefully received. We also thank Jose Ruijter and Hans Nijhoff for their comments on the final text. The work of Fiona Hall in final editing, Steven Haw in reproduction of diagrams, Annette van 't Hull in coordinating production and Martha Lauría in design and layout is much appreciated.

Errors, omissions and interpretations remain, of course, the responsibility of the authors.

Disclaimer

This guide is prepared as part of the Regoverning Markets Programme funded by the UK Department for International Development (DFID), the International Development Research Centre (IDRC), the Canadian International Development Agency (CIDA), ICCO, Cordaid, and the US Agency for International Development (USAID). The views expressed are not necessarily those of the funding agencies.

Table of contents

1	Introduction	1:11
1.1	Why this guide?	1:11
1.2	Who is the guide for?	1:13
1.3	Four key concepts	1:14
1.4	An overview of the methodology	1:15
1.5	Using the guide.....	1:17
2	Modern dynamic markets	2:19
2.1	The drivers of change	2:20
2.2	Emerging trends.....	2:23
2.3	The central role of value chains	2:26
2.4	Implications for stakeholders.....	2:27
3	Understanding institutions and their influence on markets	3:31
3.1	What are institutions?.....	3:31
3.2	Four key functions of institutions.....	3:35
3.3	Overview of key institutions and policies	3:38
3.4	Producer organisations	3:45
3.5	Civil society institutions	3:47
3.6	Institutional change, empowerment and partnerships	3:48
4	The methodology in practice: an overview	4:51
4.1	The analytical framework	4:51
4.2	Integrating the analysis into a multi-stakeholder process	4:52
4.3	Monitoring and evaluation	4:58
5	The methodology in practice: a step-by-step guide	5:59
5.1	Activity 1: Mapping the value chain	5:61
5.2	Activity 2: Mapping the institutional and policy environment.....	5:66
5.3	Activity 3: Mapping drivers, trends, issues and opportunities.....	5:72
5.4	Activity 4: Mapping future scenarios	5:76
5.5	Activity 5: Mapping options for better inclusion	5:81
5.6	Activity 6: Mapping strategies to support change.....	5:90

6	Additional tips for facilitating multi-stakeholder processes and workshops	6:97
6.1	Background to multi-stakeholder processes	6:97
6.2	Running a successful workshop	6:102
6.3	Logistics.....	6:105
Appendix 1: List of Chain-wide Learning Events		A-1:107
Appendix 2: List of References and Resources		A-2:108

Figure 1.1	Analytical framework for mapping and influencing policies and institutions in dynamic agrifood markets	1:16
Figure 1.2	Stakeholders discussing the value chain and institutional map during a multi-stakeholder workshop in Turkey	1:17
Figure 2.1	The different stages of market concentration	2:24
Figure 2.2	Summary of major drivers and trends in re-structuring and re-governance of agrifood markets	2:26
Figure 3.1	Institutions involved in the functioning of agrifood markets	3:32
Figure 3.2	Incentives, actors, actions and institutions.....	3:33
Figure 3.3	Framework for institutional analysis of markets and value chains	3:36
Figure 3.4	Examples of the impact of different institutions along a value chain	3:38
Figure 4.1	Analytical framework for mapping and influencing policies and institutions in dynamic agrifood markets	4:52
Figure 4.2	The central role of a facilitation in bringing together multiple stakeholders....	4:54
Figure 4.3	A hypothetical multi-stakeholder process over the course of a year.....	4:57
Figure 5.1	Analytical framework for mapping and influencing policies and institutions in dynamic agrifood markets	5:59
Figure 5.2	Basic value chain map	5:61
Figure 5.3	Institutional matrix mapped onto a value chain diagram.....	5:67
Figure 5.4	Identification of key drivers, trends, issues and opportunities	5:72
Figure 5.5	Basic future scenario diagram	5:76
Figure 5.6	Identification of options for inclusion	5:81
Figure 6.1	A checklist for designing and facilitating multi-stakeholder processes	6:99
Figure 6.2	A small multi-stakeholder group works together on key issues in the potato chain in Bangladesh.....	6:103

List of tables

Table 3.1	Examples of how institutions affect the inclusion of small-scale producers in modern agrifood markets	3:34
Table 3.2	Examples of laws and regulations that affect small-scale producers	3:41
Table 5.1	Action planning matrix	5:90
Table 5.2	Matrix of stakeholder power, incentives and ways forward for better inclusion of small-scale producers.....	5:90

List of examples

Example 5.1	Potato value chain map, Bangladesh	5:63
Example 5.2	Tomato value chain map, Turkey.....	5:64
Example 5.3	Strawberry value chain map, Mexico	5:65
Example 5.4	Value chain and institutional map: the tomato market in South Africa.....	5:70
Example 5.5	Value chain and institutional map: the dairy sector in India.....	5:71
Example 5.6	Drivers and trends in the dairy value chain in India	5:74
Example 5.7	Key issues for stakeholders in the dairy value chain, India	5:75
Example 5.8	Drivers and trends in the potato market, Bangladesh.....	5:75
Example 5.9	Future scenarios for the tomato market in Indonesia.....	5:79
Example 5.10	Future scenarios for the potato market in Thailand.....	5:80
Example 5.11	Force-field analysis of the fresh fruit and vegetable market in Indonesia ...	5:86
Example 5.12	Force-field analysis of the vegetable sector in the Philippines	5:86
Example 5.13	Cause-and-effect diagram: problems with fruit and vegetable quality in Morocco	5:87
Example 5.14	Options to improve smallholder inclusion in the tomato market, Turkey....	5:88
Example 5.15	Threats and opportunities for small-scale tomato producers in South Africa	5:88
Example 5.16	Problem and solutions trees for the potato value chain in Bangladesh	5:89
Example 5.17	Strategies for change for small-scale producers in Morocco	5:93
Example 5.18	Strategies for improving finance options for small-scale producers in Bangladesh	5:93
Example 5.19	Roles of different stakeholders in developing “priority clusters” in the fresh fruit and vegetable market in the Philippines.....	5:94

About the authors

Sonja Vermeulen is a Senior Researcher in the Natural Resources Group at the International Institute for Environment and Development, UK, undertaking policy research and advocacy in collaboration with a wide range of partners in Africa, Asia and Europe. Sonja's areas of work include business models for inclusion of small-scale producers in forestry and agriculture and participatory tools for more inclusive environmental governance.

Jim Woodhill is Director of the Capacity Development and Institutional Change Programme at Wageningen University and Research Centre in the Netherlands. He has worked for over 20 years on the challenges of rural development and natural resources management with a particular focus on designing and facilitating innovation and learning processes. Jim holds a PhD in political economics from the Australian National University and has a keen interest in the links between globalisation and local economic development.

Felicity Proctor has worked in international development for over 35 years and is currently Director of a consultancy firm and a Visiting Fellow at IIED, UK. She is specialised in rural and agricultural diversification and export development, particularly in the horticulture sector. Felicity has extensive experience in agriculture and rural development strategy formulation and local economic development. She has worked on policy outreach linking action research to public, private and civil society policy and institutional change processes. Most recently this has included being policy outreach leader within the Regoverning Markets Programme.

Rik Delnoye when contributing to this guide worked for the Capacity Development and Institutional Change Programme at Wageningen University and Research Centre. He presently works for the Netherlands Development Organisation (SNV) in Laos as governance for empowerment specialist. After graduating from Wageningen University, Rik has had a diverse career in international development, working for the United Nations, the private sector, and international NGOs. He specialises in the governance aspects of agricultural development.
